- LED IceMaker lighting
- Variable capacity ice compartment
- Freezer berry tray

* Not available on all models in the range

Key Features

Open Stage

Proven quality, food storage that guarantees greater freshness and high energy efficiency: there are plenty of very good reasons to choose Liebherr!

BioFresh

Stored close to 0°C and at optimized humidity, fruit, veg, meat, fish and dairy products remain fresher for much longer.

EasyFresh

The guarantee of market freshness in the home is our EasyFresh-Safe. Thanks to the air-tight closure, the food causes the humidity in the safe to rise. This keeps the food fresh for a long time.

DuoCooling with Charcoal filter

Separate cooling circuits for the fridge and freezer compartments prevent odour transfer and stops food drying out.

Infinity Spring

The flush-mounted water dispenser is always there when it is needed and almost invisible when it's not. It is suitable for containers of almost any size and also for carafes and bottles. The integrated filter system ensures perfect water quality.

IceMaker

Providing you with perfect ice cubes for every occasion, our IceMaker automatically keeps your supplies topped up.

HydroBreeze

Refrigerate like the professionals: A fresh, cold mist ensures crisp freshness and improves structure – the special wow effect for fruit and vegetables.

OpenStage

The complete contents of the fridge can be stored and easily removed on the fully-extendable glass shelves. Maximum convenience even when closing the pull-out drawers thanks to the self-closing mechanism and soft damping.

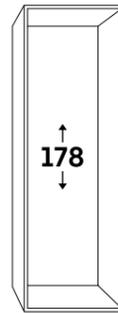

SmartSteel Interior Doors

The rear wall in elegant SmartSteel gives your Liebherr a stylish look and feel. Your food will also love SmartSteel as stainless steel is food-safe and hygienic. SmartSteel also reduces the visibility of fingerprints – making the appearance even more pleasing.

We have not completely reinvented the fridge. But almost.
