Introducing wine cabinets

To continue to enhance the collection of complementary kitchen appliances from Rangemaster, we are pleased to introduce a new range of under-counter dual zone wine cabinets.

The Rangemaster branded cabinets are available in 30cm and 60cm widths, and incorporate a wealth of features to protect wine and keep bottles in premium condition. The dual-zone cabinets cater for wine connoisseurs, and those who love to entertain, with two temperature zones – a 4-11° C upper zone and 12-22° C lower zone – and an anti-vibration system.

AGA RANGEMaster

AGA RANGEmaster

30cm wine cabinet

Overview of Key Features

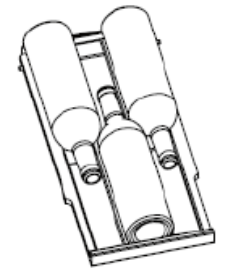

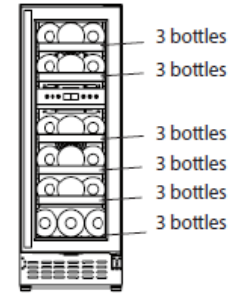

Rangemaster branded wooden shelf

Dual temperature zones for two different internal temperatures – one in the upper section and one in the lower.

Upper zone 4–12° C
Lower zone 12–22° C

5 glide-out premium wooden shelves for easy access

RANGEmaster

UV filtered glass to protect the wine from the sun's harmful rays and an anti-vibration system to avoid disturbing the sediment

Triple glazed doors

Black or Stainless Steel frameless door

Stainless Steel handle

Recessed plinth (Must allow for ventilation)

4 adjustable feet for levelling

Reversible door – can be handed left or right

G rated under the new energy efficiency scale

White LED lighting offering instant illumination as soon as the door is opened

Designed to hold 18 bottles

Digital control touch panel with white LED display

Designed to fit 750ml Bordeaux style bottles

Net capacity 60L

Door open warning to prevent the door being left open and potentially causing the temperatures to rise
